

McLaren Vale Hospital Site Survey

At Kalyra we intend to continue to use the McLaren Vale Hospital site to support the health and housing needs of residents of the Fleurieu Peninsula as they age and respond to the needs of the community on the site. We aspire to build a community of belonging.

To help achieve this we want to embark on a process of co-design and deliberative engagement which involves bringing together key stakeholders to design how we will work together before then embarking on that journey of working together about the future of the site.

This survey is the first step in that process.

In line with these aspirations this survey seeks to understand two key things:

1. What you value about the McLaren Vale Hospital site? – What elements of the Hospital site are important to you and why?
2. How you want us to work with you about the Hospital site? This information will be used to assist us in further developing our engagement approach.

We will also ask a few questions about you

This survey is the first and very early step in working with the McLaren Vale community on the future of the Hospital site.

Please return completed survey by email or post to:

What is important to you about the McLaren Vale Hospital site

1. What is most important to you about the McLaren Vale Hospital site? Order from most important (at the top) to least important (at the bottom).

- Natural Environment – natural heritage.
- Built heritage (buildings).
- GP Wellbeing Clinic.
- Other wellbeing and allied health services.
- Op Shop.
- Supporting Community facilities.
- History of the site.
- Supporting Community services (such as Meals on Wheels and community radio).
- Pathology services.

2. Reflecting on your answer to Question 1, why is your Number 1 (top) ranking so important to you?

3. Is there anything else about the McLaren Vale Hospital site that is important to you and why?

4. What are your hopes for the McLaren Vale Hospital site?

How you want Kalyra to engage with you about the Hospital site

We are going to use the results of this survey to help us ensure we are engaging you in ways that work for you and others in the community. One way we are going to involve the community and key stakeholders is to set up a Co-design Advisory Group.

Whilst we will use the results of this survey to help us in determining what the Co-Design Advisory Group will focus on – in general terms we are thinking that they will set the vision for the site and work with us to determine the principles for how the site will and won't be used. We anticipate that this group will meet regularly for a few months, beginning in March 2024 and then quarterly. Membership on the Group will be for 2 years. An honorarium will be provided to assist in covering costs.

5. Please identify the ways you would like Kalyra to work with you on the future of the McLaren Vale Hospital site? You can identify as many options as relevant to you.

- Information via the local media.
- Information via social media.
- Information events – Community meetings.
- Consultation events – community BBQs / morning teas / social get togethers.
- Being a participant on a co-design working group (noting that this will involve occasional meetings over a term of 2 years).
- Surveys (like this one).
- Direct communication via letters or emails.
- Workshops.
- Newsletters
- Other (please specify):

6. What sorts of issues would you like the Co-design Advisory Group to look at / explore.

7. What sorts of issues would you like to be kept up to date about regarding the site?

8. If you would like to learn more about the Advisory Group and potentially register your interest for being a member of this group – please provide your details below?

Name:

Residential Postcode:

Email Address OR Residential Address (if you don't have an email address):

9. If you would like us to maintain direct contact with you about the site more generally please provide your best contact details.
